CARTE POSTALE.

POSTKARTE.

The Shag or Green Cormorant is in its winter dress of a beautiful lustrous green. In early spring it develops a crest on the head, for which reason it is also called the Crested Cormorant. The nest, a mass of sea-weed plastered together, is placed in clefts and on edges of cliffs; the young birds when first hatched have no feathers and are quite blind. The bird is an expert swimmer and diver, and lives on fish.

(FOR ADDRESS ONLY.)

*Printed in England.*
